

## Nocturnal Love

## 2014 moonlight on wings

I went out for a pot of gold, but found some silver amidst the vines

C F C F  
I was foraging through the forest just biding my time

C F C F  
When I came upon you my love I was eased by your calm vibe

C F C F  
Praise the lord for life on earth the trials and tribulations we have found

am G  
But the gold ain't important no more

am G C F C F  
Because the thing I've got in store is you your love through the forest of our times

C F D C F C F  
the calm before storm I float down to you serenity at the head of the trail

C F C F  
Moonlight brightens up the night my sharp nocturnal yellow eyes

C F C F  
Your eyes were brown daggers but they were beautiful all the time

am G  
But the gold ain't important no more

Because the thing I've got in store is you your love through the forest of our times
